

HepataFood - A New DIGESTIVE & LIVER NUTRITIVE THAT REALLY WORKS!

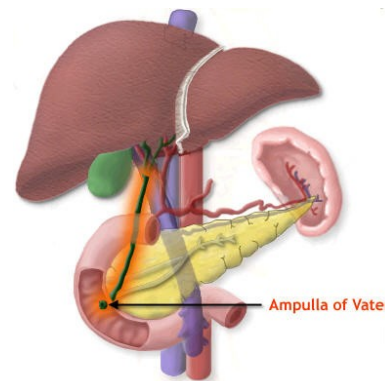

Dr. Paul Yanick pioneered the development of **Hepataood™**...the ultimate nutritive for the gastrointestinal tract and body.** In this unique, one-of-a-kind proprietary formula are:

- ❖ **CHOLAGOGUE HERBS** - (*DANDELION ROOT*) to promote the production and flow of bile and to nourish excretion and secretion channels at gastroduodenal juncture while maintaining a habitat and niche for microbiome biodiversity & sustainability **
- ❖ **SPASMOLYTIC, CARMINATIVE & ANTIOXIDANT HERBS** (*TURMERIC ROOT, LICORICE ROOT*) to help prevent spasms of the biliary tract or gall bladder that decrease bile flow and inhibit the detoxification of hormone-blocking xenoestrogens**
- ❖ **LIVER PROTECTINE & PANCREATIC NOURISHMENT** (*CHINESE SKULLCAP & SCHISANDRA BERRY*)
A quorum-ferment and 4:1 concentrate for liver protective and pancreatic nourishment (*NUTRITION 2004*).**

The result: a nutritive tune-up of the entire digestion system to synchronize the proper flow of digestive enzymes and bile so you get more nourishment from the food you eat, deeper cleansing of the liver and bloodstream, and a rapid boost in microbiotica nutrient production and metabolism.** Indeed, researchers have shown that maldigestion involves a deficiency in the flow of digestive juices (*GUT 1999:45; GUT 1998:43; HEPATOLOGY 1994:4; ENDOSCOPY 1998:30; DIGESTIVE DISEASES & SCIENCES 1997:42*)

NOTHING COMPARES! Key Highlights of HepataFood™

- ✓ **Ideal Nourishment!** Nourishes fast to help strengthen and restore the digestive tract and habitat for microbiome.**
